DETAILED ACTION

1. Applicant's Response to Office Action, received 9 July 2008, is acknowledged. Claims 23 and 48 have been amended.
2. Claims 22-48 are pending and under consideration.

Rejections Maintained

3. The rejection of claims 22-48 under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement, is maintained.

Applicant argues that the specification is sufficient support for the claimed inventions and that the EPO granting of counterpart claims also indicates sufficient support.

The examiner has considered applicant's argument, but does not find it persuasive. The instant claims are drawn to methods of treatment, management or prevention of lung disease by administration of "Mycobacterium w or a constituent of Mycobacterium w". However, as put forth in the previous office action, while the specification does recite 8 different preparations, the specification does not indicate which preparation was actually utilized. Therefore, there remains insufficient support for the claimed inventions because it is unclear which, if any, of the recited preparations was actually utilized and produced the claimed results.

Conclusion

4. Claims 22-48 are finally rejected.
5. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Rodney P. Swartz, Ph.D., Art Unit 1645, whose telephone number is (571) 272-0865.
